

UnDesked

FRONTLINE PRODUCTIVITY PLATFORM

The frontline workplace is riddled with blind spots, silos, communication gaps, & analog processes.

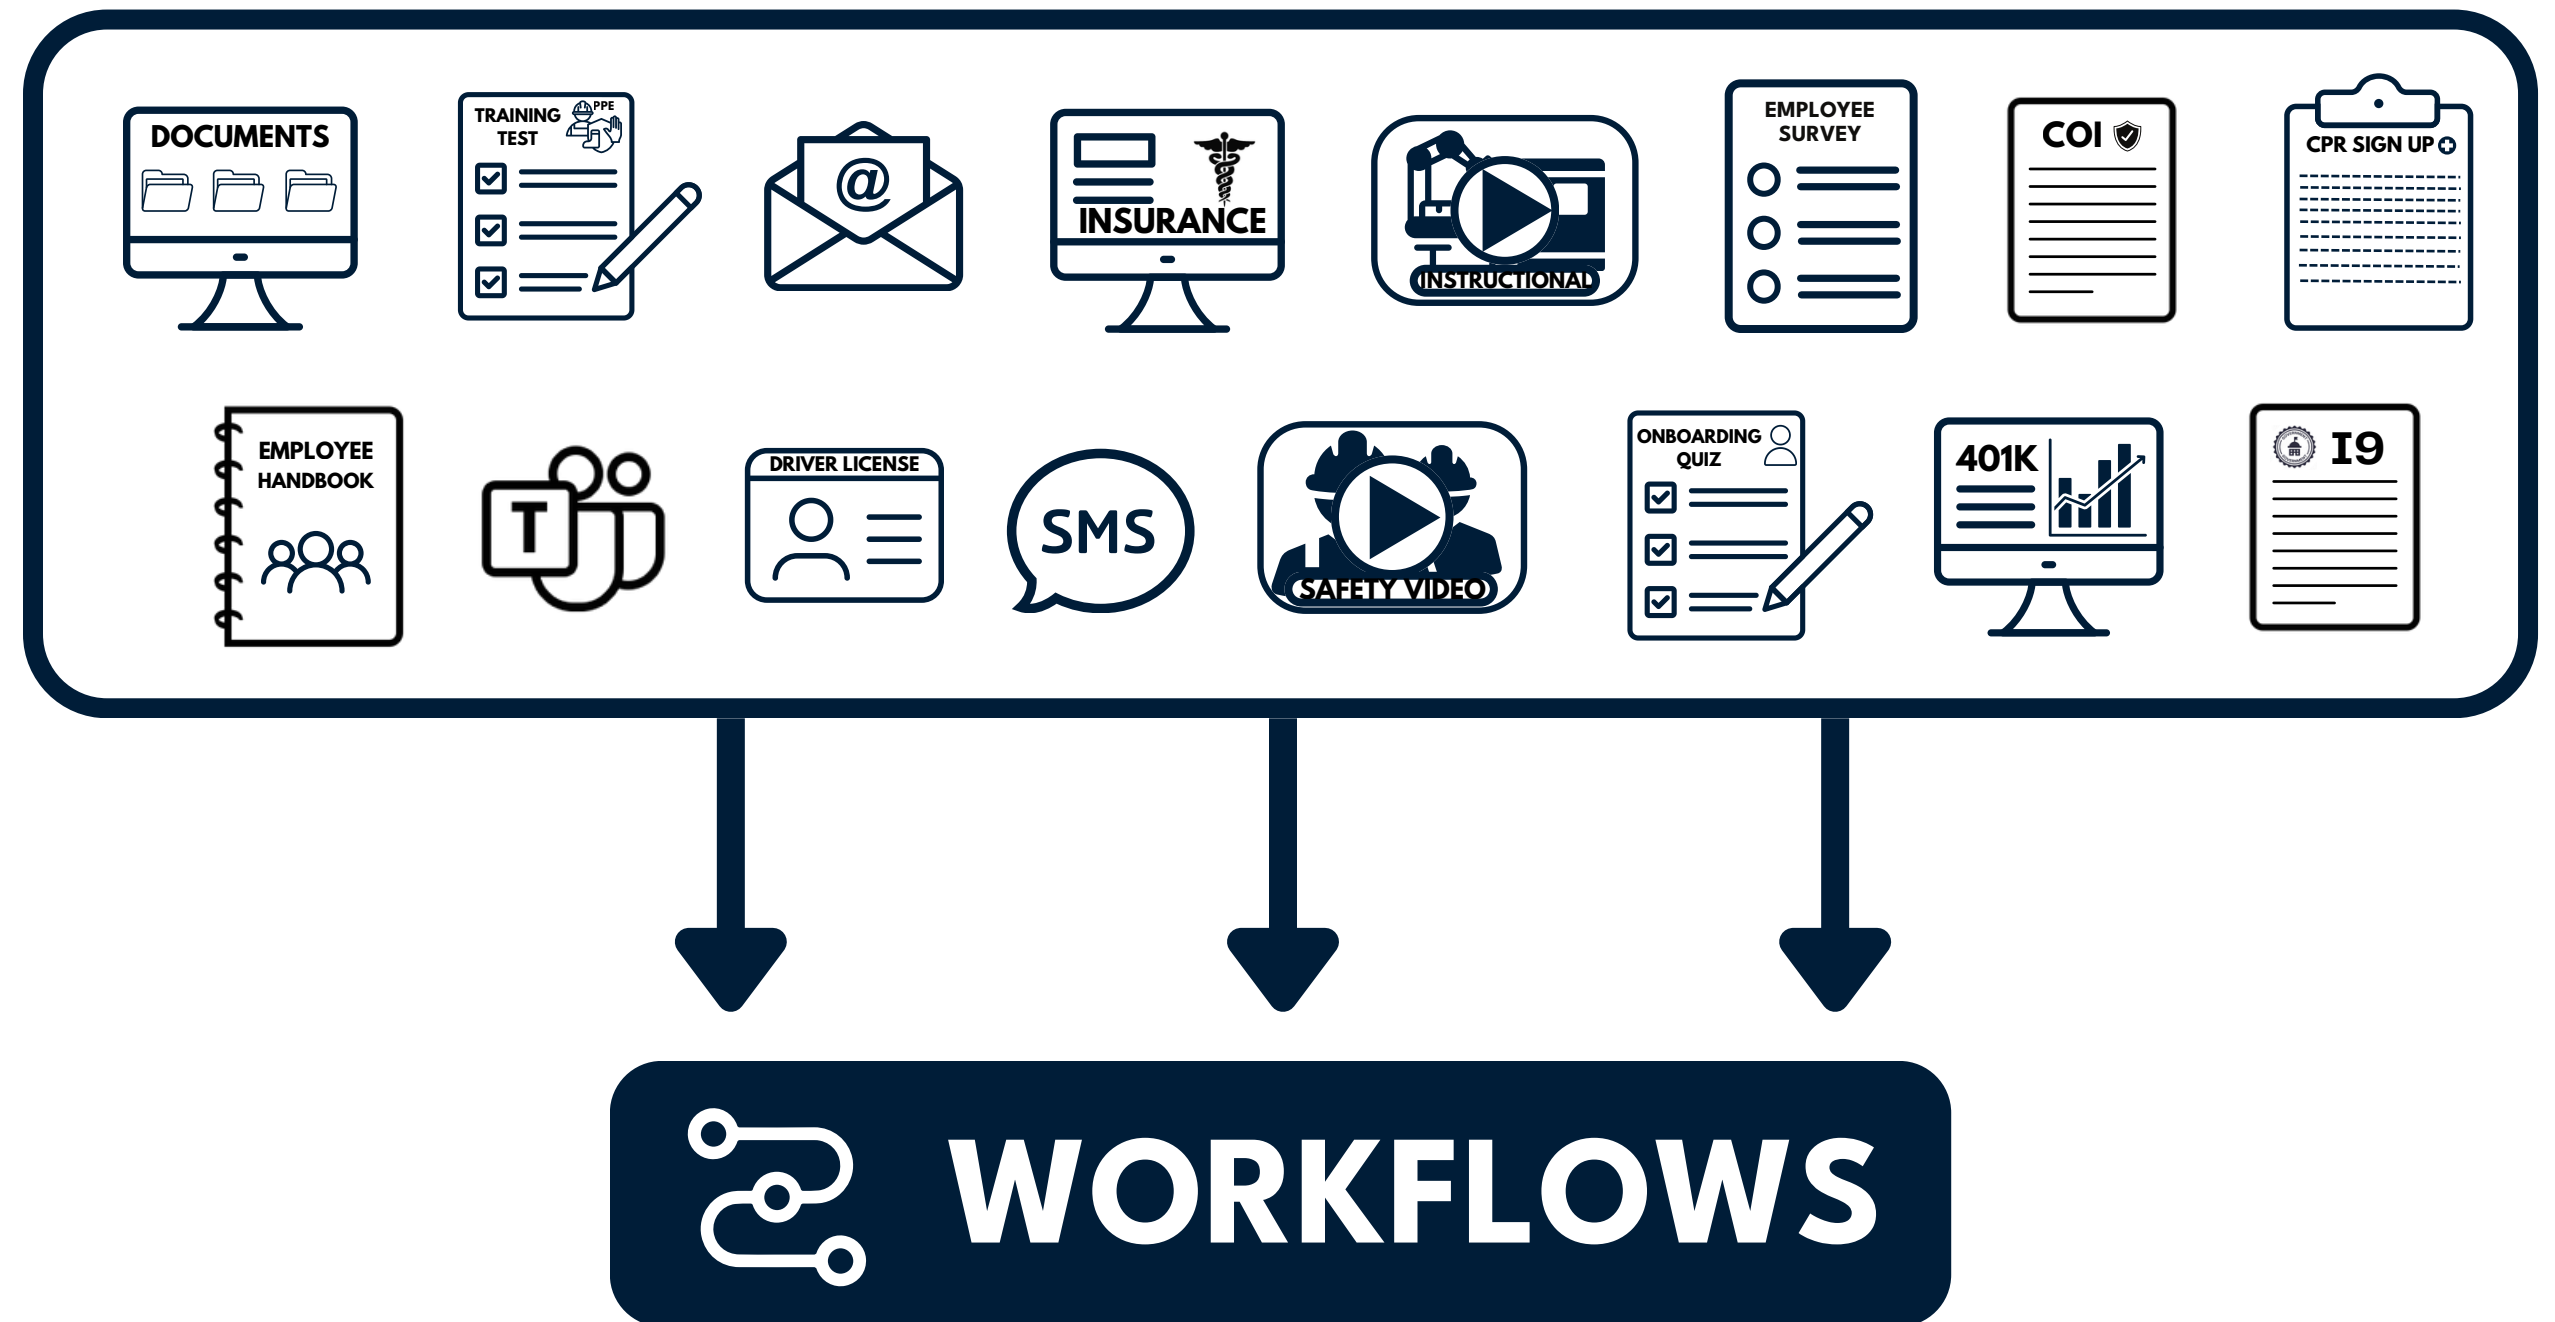

UnDesked is the frontline worker's gateway to every relevant tool, resource and workflow.

UnDesked connects every team and every employee using their ideal communication channels.

UnDesked replaces countless analog processes & single-point solutions with custom digital workflows.

Create a fully connected digital frontline workplace.

DIGITAL SIGNAGE

Designed to Enhance Communication,
Engagement, Safety, & Productivity

A digital signage screen displays a safety alert. The main text reads 'SAFETY ALERT' in large, bold letters, with 'SAFETY' in white and 'ALERT' in pink. Below this, it says '#18'. At the bottom, a white banner reads 'Un Desked' and 'n and ask them to check in. Thank you!'. On the right side, there are three panels: 'HELP CALL' with a QR code, 'TUESDAY TRAINING' listing Alex Johnson, Priya Singh, Jordan Lee, and Gianna Silva, and 'Defects 1.3%' and 'OOE 89%'. At the bottom right, a date and time stamp reads '04/01/2025 11:30 AM'.

Custom layouts for each device using a combination of video playlists, bulletin scrollers, scannable QR codes, KPI and scorecard dashboards, visitor queues, text notifications, emergency alerts, app integrations, and customer branding to create impactful signage throughout the facilities.

Empower your workforce with real-time information that is essential for their safety, productivity, and engagement. Communicate KPIs, company events, safety protocols, emergencies, visitor arrivals, and HR information.

TOUCHSCREENS

Manufacturing-grade digital touchscreen provide easy access to vital information and communications at any area or location in a facility. From visitor check-in kiosks to HR kiosks to training kiosks to production and safety kiosks, dedicated touchscreens allow convenient and curated access to important facility workflows, tools, and resources.

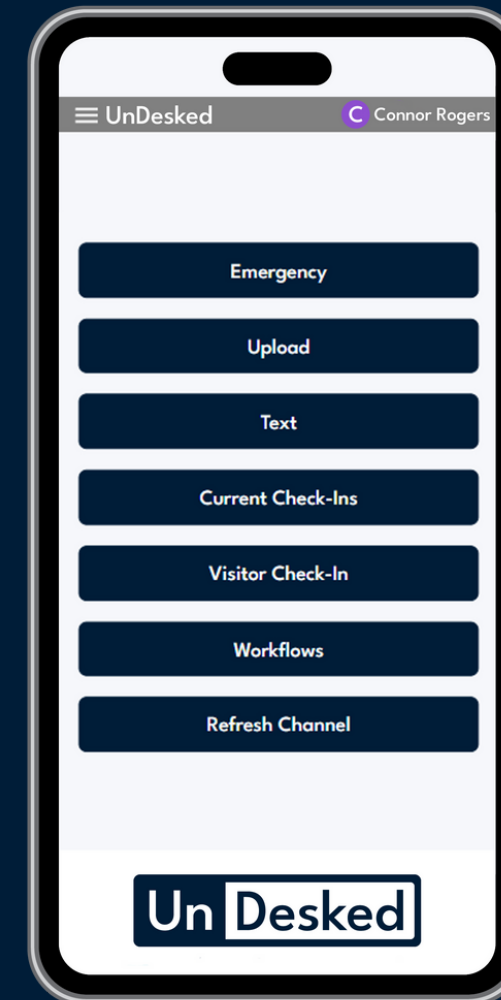

QR CODES

QR Codes create an access point for your visitors and employees. These are easily created within the UnDesked platform and link to important situation-dependent workflows. Make digital copies, add to digital signage or print and display throughout your facility.

ADMIN PORTAL

Easy to learn and use admin portal. Mobile-friendly interface.
Advanced user controls to manage permissions for each site and product.

ONBOARDING & SUPPORT

ONBOARDING & SUPPORT

	Frontline Platforms	ERP Systems	HRIS/HCM Systems	UnDesked	
	Cost Expectations	Six to seven figures annually; high license fees; heavy consulting costs	\$25–\$50+ per employee per month; large setup fees (\$5k–\$50k)	As low as \$5 per employee per month; low setup fees \$5 per employee	
	Implementation Timeline	12–24 months; phased rollouts common	3–9 months; data migration is bottleneck	4–12 weeks (sometimes less); can start small and expand	
	Team Involvement	Dedicated project teams across finance, ops, IT; heavy, full-time demands	HR and payroll teams; IT support; moderate effort	Managers/supervisors validate workflows; lighter time commitment, a few hours/week	
	Consultants Needed	Always; consulting often equals or exceeds license fees	Common; vendor-led onboarding or consulting, predictable cost	Never; designed for in-house rollout with comprehensive onboarding program	
	Usability Off the Shelf	Low; heavy customization required	Moderate; usable but geared to office staff	High; built for immediate use with preconfigured workflow templates	
	Hard Impact	Reduced error rates, faster reporting, compliance savings, but delayed	Improved HR reporting, payroll accuracy, compliance readiness	Immediate reduction in admin hours, faster task completion, compliance gains	
	Soft Impact	Frustration during rollout; adoption slow	Moderate adoption; limited engagement for frontline staff	High adoption; morale boost; direct impact on frontline engagement	
	Time to ROI	Long—often years	Medium—within a year	Short—months
