FILE MANAGEMENT

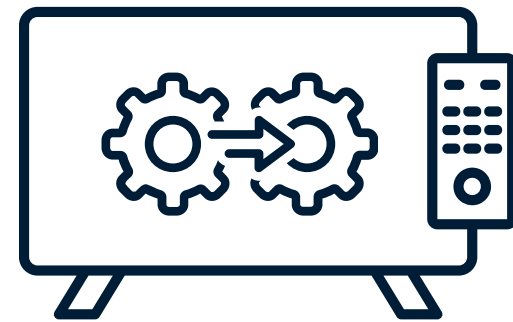

What does a frontline productivity platform do?

MOBILE-FRIENDLY & EASY TO USE

- Mobile-optimized UX
- Minimal learning curve (intuitive interfaces)
- Progress saving across multiple sessions

DIGITAL SIGNAGE, KIOSKS & TABLETS

- Integrate with TV/display screens (factory floor, break rooms, warehouses)
- Accessible from touchscreen kiosks
- Compatible with tablets and other portable devices

ROLE- & SHIFT- BASED GROUPINGS

- Custom roles and shifts
- Task, process, and project assignments (checklists, workflows)
- Secure, but streamlined
- PIN and badge

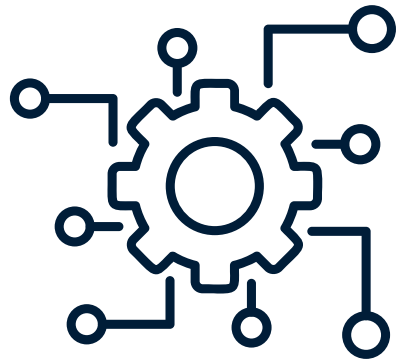

LOCATION-BASED FEATURES

- Contextual programming for resource and workflow access
- Location-specific messaging and check-ins
- Access control based on location, roles, and shifts

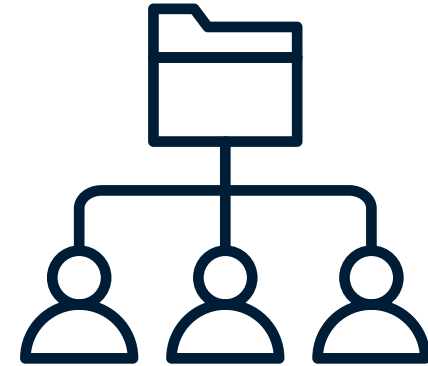

What does a frontline productivity platform do?

AUTOMATIONS & WORKFLOWS

- Digital forms and automated reporting
- Trigger-based assignments
- Workflow automation (e.g., inventory checks, maintenance logs)

RESOURCE SHARING & TRAINING

- Microlearning or bite-sized training modules
- Video tutorials accessible via any connected device
- Centralized, easily searchable knowledge base

REAL-TIME COMMUNICATION

- Peer-to-peer notifications
- Instant messaging designed for quick responses
- Real-time announcements (SMS, app notifications, digital signage)

SAFETY & COMPLIANCE TOOLS

- Easy safety reporting, checklists, or audits
- Real-time safety alerts
- Compliance tracking and documentation
